

Minutes of the Meeting (MoM) - week 4

Minutes of the Meeting

Project Title: Magpie - Services at a glance

Group Members: Kaustubh, Saul, Andreas, Jessica, Anais, Yuanshuo Du (Steven)

Date: 8th October 2024

Time: 12.30 pm

Location: Online (Dublin, Ireland)

1. Attendance

- Present:
 - Kaustubh
 - Jessica
 - Andreas
 - Steven
 - Anais
 - Absent:
 - Saul (Sick)
-

2. Agenda of the Meeting

1. Discussion of what work was done in last week
 2. Discussion over what is supposed to be done today.
-

3. Discussion and Key Points

1. Agenda Item 1:

- Andreas is done with implementing routes for points api. Currently they are working on api routes for user authentication.
- Jessica is working on hooking up YOLO with label-studio to automate annotations task using a pretrained model.
- Anais has worked on the survey which we are supposed to send out to city council people and our target userbase.
- Steven has made the login and signup pages in the frontend.
- Kaustubh has started to implement Swagger for the backend.

2. Agenda Item 2:

- Andreas is going to work on solving CORS issue later on.
- Jessica will be working on hooking up YOLO with label-studio. They are working on using YOLO for annotating the images of the dataset.
- Anais is working with jessica to get the YOLO to work with label-studio.
- Steven is working on improving the UI of the login and signup pages and trying to fix some issues with the same.
- Kaustubh will continue to work on integrating swagger for Go in the backend.
